Continued Prosecution Application

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 03, 2004 has been entered.

The preliminary amendment filed on 08/03/2004 after final rejection does not introduce new matter. Claims 1, 3-9, 11-13, 16-27, 29-32 and 34-46 are under examination.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Upon reconsideration of the references of record together with the applicant's remarks it has been found that the primary reference U.S. Patent 6,383,439 to Schader does not disclose ethylene-higher alpha-olefin without diene component. The secondary reference does not disclose a mixture of polyolefin with a functionalized ethylene-alpha-olefin. Both references do not disclose a step of pelletizing the mixture before adding to the mixture of monomer(s) for functionalizing the ethylene-alpha-olefin elastomer.

3. The new search has been made for a functionalized ethylene-alpha-olefin elastomer having an ethylene content of from 30 wt.% to a70 wt.% and a polyolefin resin matrix.

4. The new reference U.S. Patent 5,843,577 to Ouhadi et al. does not disclose ethylene content for the ethylene-alpha-olefin component.

Art Unit: 1711

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
